PERSONAL PROJECT

Travel Website
- Designed and developed a dynamic travel website using HTML, CSS, and JavaScript to showcase destinations, travel packages, and booking options. The project focused on creating a responsive user interface with interactive features like carousels, search filters, and form validations, ensuring a seamless and engaging user experience.

beauty parlour website
- Developed a responsive beauty parlour website using HTML, CSS, and JavaScript, showcasing services, pricing, and appointment booking features. Designed an elegant and user-friendly interface with modern layouts to reflect the brand's aesthetic. Integrated interactive features like service galleries, customer testimonials, and a contact form to enhance user engagement and functionality.
